

4th International Conference

An aerial photograph of a construction site. A large white drilling rig is positioned in the center, with a circular hole drilled into the ground. Three workers in blue hard hats and safety vests are standing around the hole. A large, rusted metal disc lies on the ground to the left. The scene is set in a sandy, open area.

Deep Foundations

15 - 16
november 2017

INVITATION

As part of the 60th Anniversary of the Mexican Society for Geotechnical Engineering, the Deep Foundations Institute, the Geo-Institute of ASCE, the Technical Committee TC-214 of the International Society for Soil Mechanics and Geotechnical Engineering and the Mexican Society for Geotechnical Engineering, are pleased to invite you to the 4th International Conference on Deep Foundations. This Conference will be a space to promote technical development and share international experiences about design and construction of deep foundations, with particular focus on soft soils.

This event, will have four technical sessions (in which, national and international engineers will participate). Geotechnical engineers, practitioners and consulting engineers, public and private contractor, academics, students and all those involved with engineering works related to deep foundations, are welcome to attend and present their recent experiences and developments on deep foundations topics.

TOPICS

SESSION 1: Past & Present of the SMIG

SESSION 2: Soil Improvement

SESSION 3: Piles

SESSION 4: Support excavations

OFFICIAL LANGUAGE

The official languages of the Conference are

English and Spanish

DEADLINE DATES

Abstracts submission:	30 June 2017
Acceptance notificacion:	04 August2017
Papers submission:	21 August 2017
Review notificacion:	18 September 2017
Final Papers:	23 October 2017
4th International Conference:	15-16 November 2017

ORGANIZING COMMITTEE

SMIG

Walter I. Paniagua Zavala
Héctor Valverde Reyes
Carlos Roberto Torres Álvarez

DFI

Mary Ellen Large
Theresa Engler

CONTACT

The submission of abstracts and papers will be through the Digital System Management SMIG - SiDiSMIG

EXPO 2017

The Mexican Society of Geotechnical Engineering makes a cordial invitation to the entire geotechnical community to attend the exhibition that will be part of the 60th Anniversary of the Mexican Society for Geotechnical Engineering which will count with the participation of manufacturers, suppliers, builders, consultants and institutions related to deep foundations and the massive improvement in soft soils.

As part of the exhibition, construction equipment, field exploration materials, products, tools and computer programs will be shown. Also, the event will count on the participation of Institutions and dependencies such as the Deep Foundations Institute (DFI), among others.

STAND COST

\$ 35,000.00 (Plus Taxes)

Measures: 3.00 m of front and 2.00 m of bottom, label of black vinyl with the social reason of the exhibitor, lighting with similar lamp line, contact triple for 110-volt power outlet.

INFORMATION AND PURCHASE OF STANDS
